

HEART and HOME PROBLEMS

Dear Mrs. Thompson—I am going with a man whom I love and he says he loves me, but he never asks to come to my home to see me. Will you please advise me how to invite him?

Should you talk to a beau as you do to a girl friend, or should you tell him that you love him better than anyone else? What is an interesting subject to talk about?

Invite the young man to come to your home and meet your parents. He should have asked you for this privilege, but perhaps he has been too shy or thoughtless. Every nice young man wants to visit a girl in her home.

Don't be gushy with a beau, and never, never tell him you love him better than anybody else unless he asks you to marry him. Then it's time enough to tell him that you love him. Don't tell him too often after that either. Let him do the telling.

Talk to your beau naturally about matters that interest both of you. Read the newspapers and you will find in them plenty of things to talk about. Lead your young man to talk about himself and his affairs. That will be interesting to him and if you love him, will interest you also.

Dear Mrs. Thompson—(1) I am engaged to a young man whom I love very dearly and I would not like to hurt his feelings, but he has a habit of not liking me all the time when we are alone together. I do not think it is proper, as it will be a good while before we are married. Do you know a good way to break him of this habit without making him feel offended?

(2) How often and when should a young man kiss a girl when they are engaged?

(3) Is it proper for the girl to kiss the young man when he asks her. If

not, what should she say?

(4) Do you think jealousy is true love?

(5) How old should a girl be when she is asked?

(6) Do not see him alone so much. You are quite right in thinking that an engaged couple should not embrace and kiss too much. It is the surest way of making them tired of each other. Married folks can't stand too much of it, either. Ask your fiancee to respect your dignity a little more.

(7) Of course you can't blame a young man for wanting to kiss the girl he is engaged to as much and as often as he can. There isn't any rule for this. It all depends upon the young people themselves, but the modest girl will discourage too much kissing.

(8) Kiss your fiancee when he asks you to—of course! Don't you love him?

(9) No.

(10) A girl is of age when she is 21 years old, in property matters. In most states a girl is of marriageable age at 18, which means that when she is 18 she is legally able to marry without her parents' consent.

Dear Mrs. Thompson—What do you think of a man who won't take off his hat when he meets a woman on the street?

I think such a man has very bad manners. He is lacking in respect for his own mother when he does not honor the possible motherhood in every woman.

There is no excuse for any man not knowing enough to take off his hat to any woman with whom he is acquainted.

OPINIONS FROM CAMPS ON RATES

Camp clerks of the Modern Woodmen society have received blanks for a petition for a referendum vote on the rates adopted by the head camp at Chicago last January, together with the following communication from the executive council of the organization: Head offices, M. W. of A., Rock Island, Ill., July 1, 1912.

Esteemed Neighbors: Heretofore no legal authority in the statutes of the various states, or in the by-laws of our society, has existed, permitting or authorizing a referendum vote of the membership upon the repeal of any law enacted by-law. Effective July 1, 1912, the legislature of the state of Illinois, at its recent special session, amended the fraternal beneficiary law under which this society is chartered, authorizing the executive council to submit to a referendum vote of the entire membership, the question of the repeal of the by-laws adopted by the head camp in January, 1912, making fixing and changing the schedule of assessment rates.

This act of the legislature requires, as a condition precedent to such referendum, filing of petitions from camps representing 10 per cent of the total membership of the society; therefore, if your camp is in favor of this referendum vote being taken, it may adopt a motion authorizing the consul and clerk to fill out and forward to the head office the enclosed form of petition.

If such action is desired by your camp, it should be had at your next regular meeting and the petition immediately mailed to Head Clerk Hawes, at Rock Island, Ill. Executive council, Modern Woodmen of America.

By A. R. TALBOT, head consul, C. W. HAWES, head clerk.

This procedure in no wise interferes with the present enforcement of the society's new plans and rates, or with the transfer of members thereto. This work may proceed without interruption.

CALENDAR SHOWS THE ARRIVAL OF DOG DAYS

Doggone dog days have come at last, as is evidenced by the calendar and emphasized by the temperature of the weather. City ordinance provides that canines must be muzzled and properly tagged at this season of the year, or take a little trip to the "happy hunting grounds." Commissioner Archie Hart has issued orders that all dogs, regardless of size, breed or appearance, if they wear no muzzle, be caught in the dog catcher, taken to jail, and unless called for within a few days, sentenced to death via the leaden messenger route. And so by closing your dog's mouth with the muzzle placed properly (not hung around his neck for an ornament, says the commissioner), you will prolong his life.

ICE DONATED BY CITY TO W.C.T.U.

Drinking Barrels Meet With Approval of Commission and Request Is Granted.

FOUNTAINS TO COME LATER

High Cost of Crystal Comes Into Debate—Dealers Maintain Lofly Pinnacle, Still.

That until such time as the city will be able to install bubbling drinking fountains it will aid in the maintenance of the W. C. T. U. drinking barrels, was the consensus of opinion of the municipal commission yesterday when a communication from the president of the temperance organization was received, asking that the city donate money for the payment of ice to be used in the coolers. A resolution by Commissioner Archie Hart providing that the amount be allowed was passed with unanimity. The abolition of the water barrels in other cities because of their unsanitary condition was scouted. As soon as possible, fountains will be installed at prominent points in the city. Commissioner Hart stated that he would see to it that the barrels are cleaned at least once a week and that germ-killing processes are employed in the work.

HIGH COST OF CRYSTAL.

Incidentally, the cost of ice came into the question along with the proposition, and report was made of unsuccessful conferences with ice dealers in an effort to have them lower the cost of the crystal from \$4 to \$3.50. As has been the instance in other cities, the dealers refused to listen to any talk of a decrease, was the report.

NURSE DEMANDS GROW; THE PUBLIC MUST ASSIST

ASSOCIATION IS IN NEED OF CONVEYANCE TO ANSWER CALLS—HOT WEATHER INCREASES WORK AMONG THE POOR.

The work of the Visiting Nurse association has grown so rapidly and to such startling proportions in the past two or three months that the ladies who feel the responsibility of the success of the association on their shoulders are becoming rather worried and feel that unless contributions of either monetary or other practical nature are coming soon, they will be forced to abandon much work which naturally falls within their jurisdiction. Money, of course, is needed, and the need is not one which can be met in any other way.

Furthermore, a conveyance of some kind is needed. Whether it be buggy, or touring car, they do not care, but some conveyance they must have, and that soon. Accordingly, they ask that anyone who has some such article let their generosity be known at The Nurses' office, or to Miss Giles, care of Thomas Drug store, or telephone 777-Y. The buggy which Mrs. Mary Robinson donated two years ago is about ready to shuffle off this mortal coil and therefore some substitute is necessary, and that quickly.

Miss Giles, the visiting nurse, will receive a much needed vacation during the month of August and an assistant nurse will be retained to take her place during her absence. This entails additional expense, and the Broadway Ladies' Missionary society and the Helpers' circle of King's Daughters have donated funds toward the payment of the salary of the assistant nurse. Further help, however, is required, and any generosity on the part of the public will be greatly appreciated and duly acknowledged.
